DESCRIPTIVE PRICE LIST AND ORDER BLANK

RETURN TO PMOLOGI

OF THE

SECTION OF LOTH CAN NURSERIES

We do a mail order business, and by making out your own order, you save 30 per cent or agent's commission, and have a better chance to know who you are dealing with. All fruits listed in their order of ripening. Everything listed gives general satisfaction. If planting in hardpan or clay subsoil, dynamite the holes two or three weeks before planting, by so doing it gives the elements a better chance to act, as well as killing all insect life. Please state how shipped, by freight, express or parcels post, otherwise we will use our best judgment. Where CASH accompanies the order, we will include some extra shrubs, bulbs, etc. Remittance can be made by P. O. order, draft or private check.

Ship by PRICES No. Total W'nt'd each 10 50 l 100 .25 .22 .20|Yellow Transparent, best early good eating, cooking Red June, an old time favorite.....C. E.
